2023 - Heaviest Load Support By An Autogate Hinge System (4588kg)

2024 - Largest Trackless Autogate & Security Door Showroom (19,788 sqft)

WHY CHOOSE

DELUX[®]

OTHER BRANDS

3mm Extrusion Reinforced Aluminium Frame Structure

Mould-casted with robust internal support, providing three times the durability to withstand force or sudden impacts.

Vs

Mild Steel Frame

Built with a slim 0.8mm mild steel frame which may compromise its structural integrity at the joining points.

Weatherproof & Rust Free

Designed to withstand hot and moist outdoor conditions, also rust-free and corrosion-free to ensure long-lasting durability.

Vs

Not Fully Rust Resistant

Rust may appear due to exposure to hot and moist outdoor weather conditions.

100% Free From Cardboard Material

Meticulously mould-casted using solid high-grade aluminium construction, ensuring top quality assurance and proven durability.

Vs

Substandard Cardboard Material

Inner core constructed with particleboard or hollow-core material such as corrugated cardboard.

100% Anti-Termite

AlutechDoor is completely protected from termite infestation and damages as it is manufactured without any wooden or cardboard substances.

Vs

Not Anti-Termite

Moist cardboard and wooden materials attract termites, necessitating various precautionary measures to prevent termite damage.

SECURITY DOOR

OTHER BRANDS

T5 Architectural Grade Fully Aluminium

Higher durability & sturdy aluminium material that ensure top notch quality & solidness, coated with premium matte finishing powder-coat, making it more aesthetically presentable.

Vs

Lower Grade or Not Aluminium

Integrated with other materials such as mild steel, stainless steel or hardboard.

Durable Heavy Duty Hinges

Features heavy-duty stainless steel bearing hinges for extra strength and long-term durability.

Vs

Mild Hinges

Uses mild steel hinges which may compromise security and door sagging problems.

Advanced Mortise Security Lock System

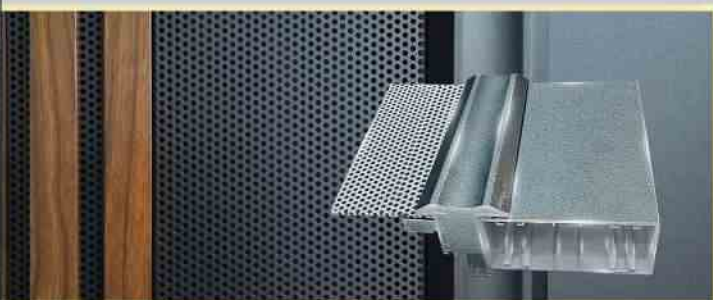

Engineered with a customized security system and a non-duplicable key, the DELUX mortise lock takes 270 minutes to breach, even for experts, and lasts up to 10 years.

Vs

Conventional Mortise Locks

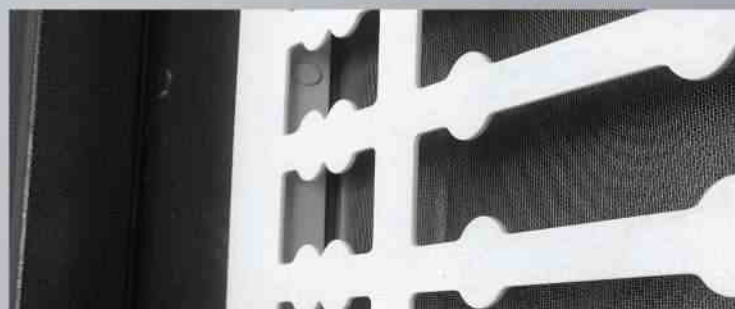

Standard locks have easily duplicated keys and can be broken into within 5 minutes, offering minimal security.

Alubotic® System

The design panel or perforated sheet of our security doors is secured using our signature anti break-in clamping system, effectively preventing any prying or forced break-ins.

Vs

Fragile Anti Break-In System

The design panel is finished with spot welding, silicon rubber, or slot-in screws, which can be easily pried open.

VERSATILITY

AT ITS BEST

DELUX AlutechDoor offers a variety of door types to cater to the sizes, directions, and color combinations of your house or premises. It combines both security and design, going beyond the ordinary door to fulfill all your needs in one.

SINGLE

- ✓ Suitable for entrance with limited space
- ✓ Limited accessibility for furniture & home appliance
- ✓ Available in 2.8ft, 3ft, 3.5ft, 4ft and 5ft

ONE & HALF

- ✓ Suitable for medium size house entrance
- ✓ Extra half door panel; increases flexibility and a wider space for transporting large-sized furniture and home appliances
- ✓ Available in 4.8ft and 5ft

DOUBLE

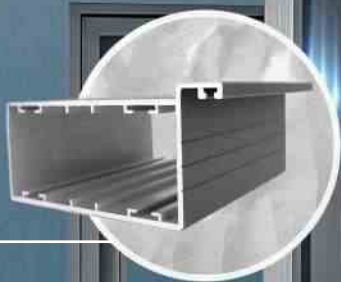

- ✓ Suitable for house with bigger wall spacing and higher ceiling
- ✓ Fill up large spaces with their physical size, design, and color combinations
- ✓ Enhance accessibility for transporting larger furniture and home appliances
- ✓ Available in 6ft and 8ft

EXPERIENCE BEYOND THE ORDINARY

With our revolutionary Alubotic technologies, we have designed AlutechDoor that offers breakthrough performance, setting it apart from anything else in the market. This exceptional security door meets the most stringent requirements, thanks to its thickened reinforced frame structure and the signature Alubotic Anti Break-In System, which has successfully undergone numerous prying and hammering tests.

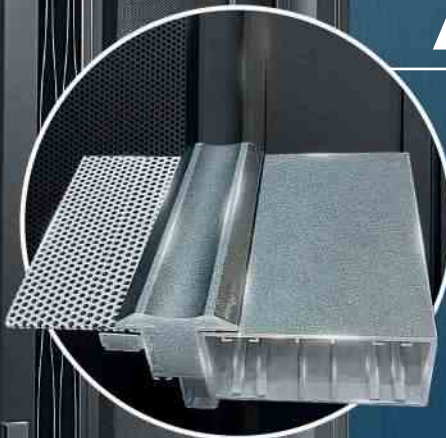

3mm Extrusion Reinforced Aluminium Frame

Features an anti-prying and anti-burglary design, backed by three times the durability support from the inner frame to withstand sudden impacts or forced break-ins.

Alubotic®

DELUX's signature anti-break-in clamping system, an invention of our own, offers enhanced security without the need for welding finishing.

14 Stainless Steel Locks

Equipped with a special cylinder and circular lock structure, ensuring top-tier security. The built-in Fast Lock system allows for swift locking and unlocking, with 14 stainless steel locks engaging simultaneously.

T5 Architectural Grade Aluminium Perforated Sheet

An innovative approach that combines mosquito mesh and grill, providing an extra safe solution while allowing natural sunlight and improved air ventilation into the house.

REVOLUTION WITH OUR ALL-IN-ONE SECURITY DOOR

DELUX AlutechDoor is a great choice to enhance your home's security. This fully aluminum security door offers enhanced safety while allowing natural sunlight and improved air ventilation without compromising on security. With its appealing design, it serves as a visual deterrent and is available in various styles and colors to complement any home. Moreover, it is budget-friendly, making it an ideal choice for homeowners.

A PACKAGE OF LUXURY, --- TECHNOLOGY & SECURITY

The combination of precision technology and security, coupled with minimalistic elegance in design, offers a truly hassle-free experience. With our keyless digital lock, opening a door will never be the same again.

MORE FEATURES TO COMPLEMENT YOUR LIFESTYLE

SAVE UP TIME & ENERGY

You can control the door and its operation remotely via mobile app.

ELDERLY FRIENDLY

No more worries about misplaced keys and lack of fingerprints sensitivity.

ENHANCED HOME SECURITY

You can monitor who and what's outside your doorstep while being away from home, at your convenience.

CONVENIENCE

You don't have to make special arrangement to be at home for your house services.

KEYLESS SWIFT EXPERIENCE

No more fumbling in your pocket or handbag to look for your keys.

EFFORTLESS ACCESS

You can unlock the door by using Face ID screening without the need to empty your busy hands

LINO SERIES

Crafted for lasting durability and modern elegance, the DELUX LINO Series is a fully aluminium security door designed to protect your home with style and strength. Built to withstand Malaysia's harsh weather, it is weatherproof, fireproof, and 100% rust-free, ensuring long-term performance with minimal maintenance. Its solid aluminium structure offers superior protection against heat and corrosion, while maintaining a sleek and contemporary look that complements any home facade.

CLASSIC SERIES SECURITY DOOR

The DELUX AlutechDoor Classic Series provides a balance of sleek design and dependable security. Equipped with 14 stainless steel locks and the Alubotic anti-break-in system, it ensures reliable protection. Its 2mm aluminium frame is both sturdy and lightweight, making it ideal for kitchen and backyard doors. The simple, sleek frame fits into modern spaces effortlessly, while the 2mm perforated sheet offers security with ventilation. This series is perfect for homeowners seeking stylish security without overwhelming design elements.

BASIC SERIES

SECURITY DOOR

The DELUX AlutechDoor Basic Series offers cost-effective security without compromising quality. It has 7 stainless steel locks and the Alubotic anti-break-in system, providing reliable protection. The 2mm aluminium frame is secure, while the perforated sheet adds airflow and affordability. Its simple, sleek frame fits easily into any home, making it a great choice for budget-conscious homeowners. The Basic Series ensures dependable security at a lower cost, offering value without sacrificing essential features.
